WHY

PATTERN

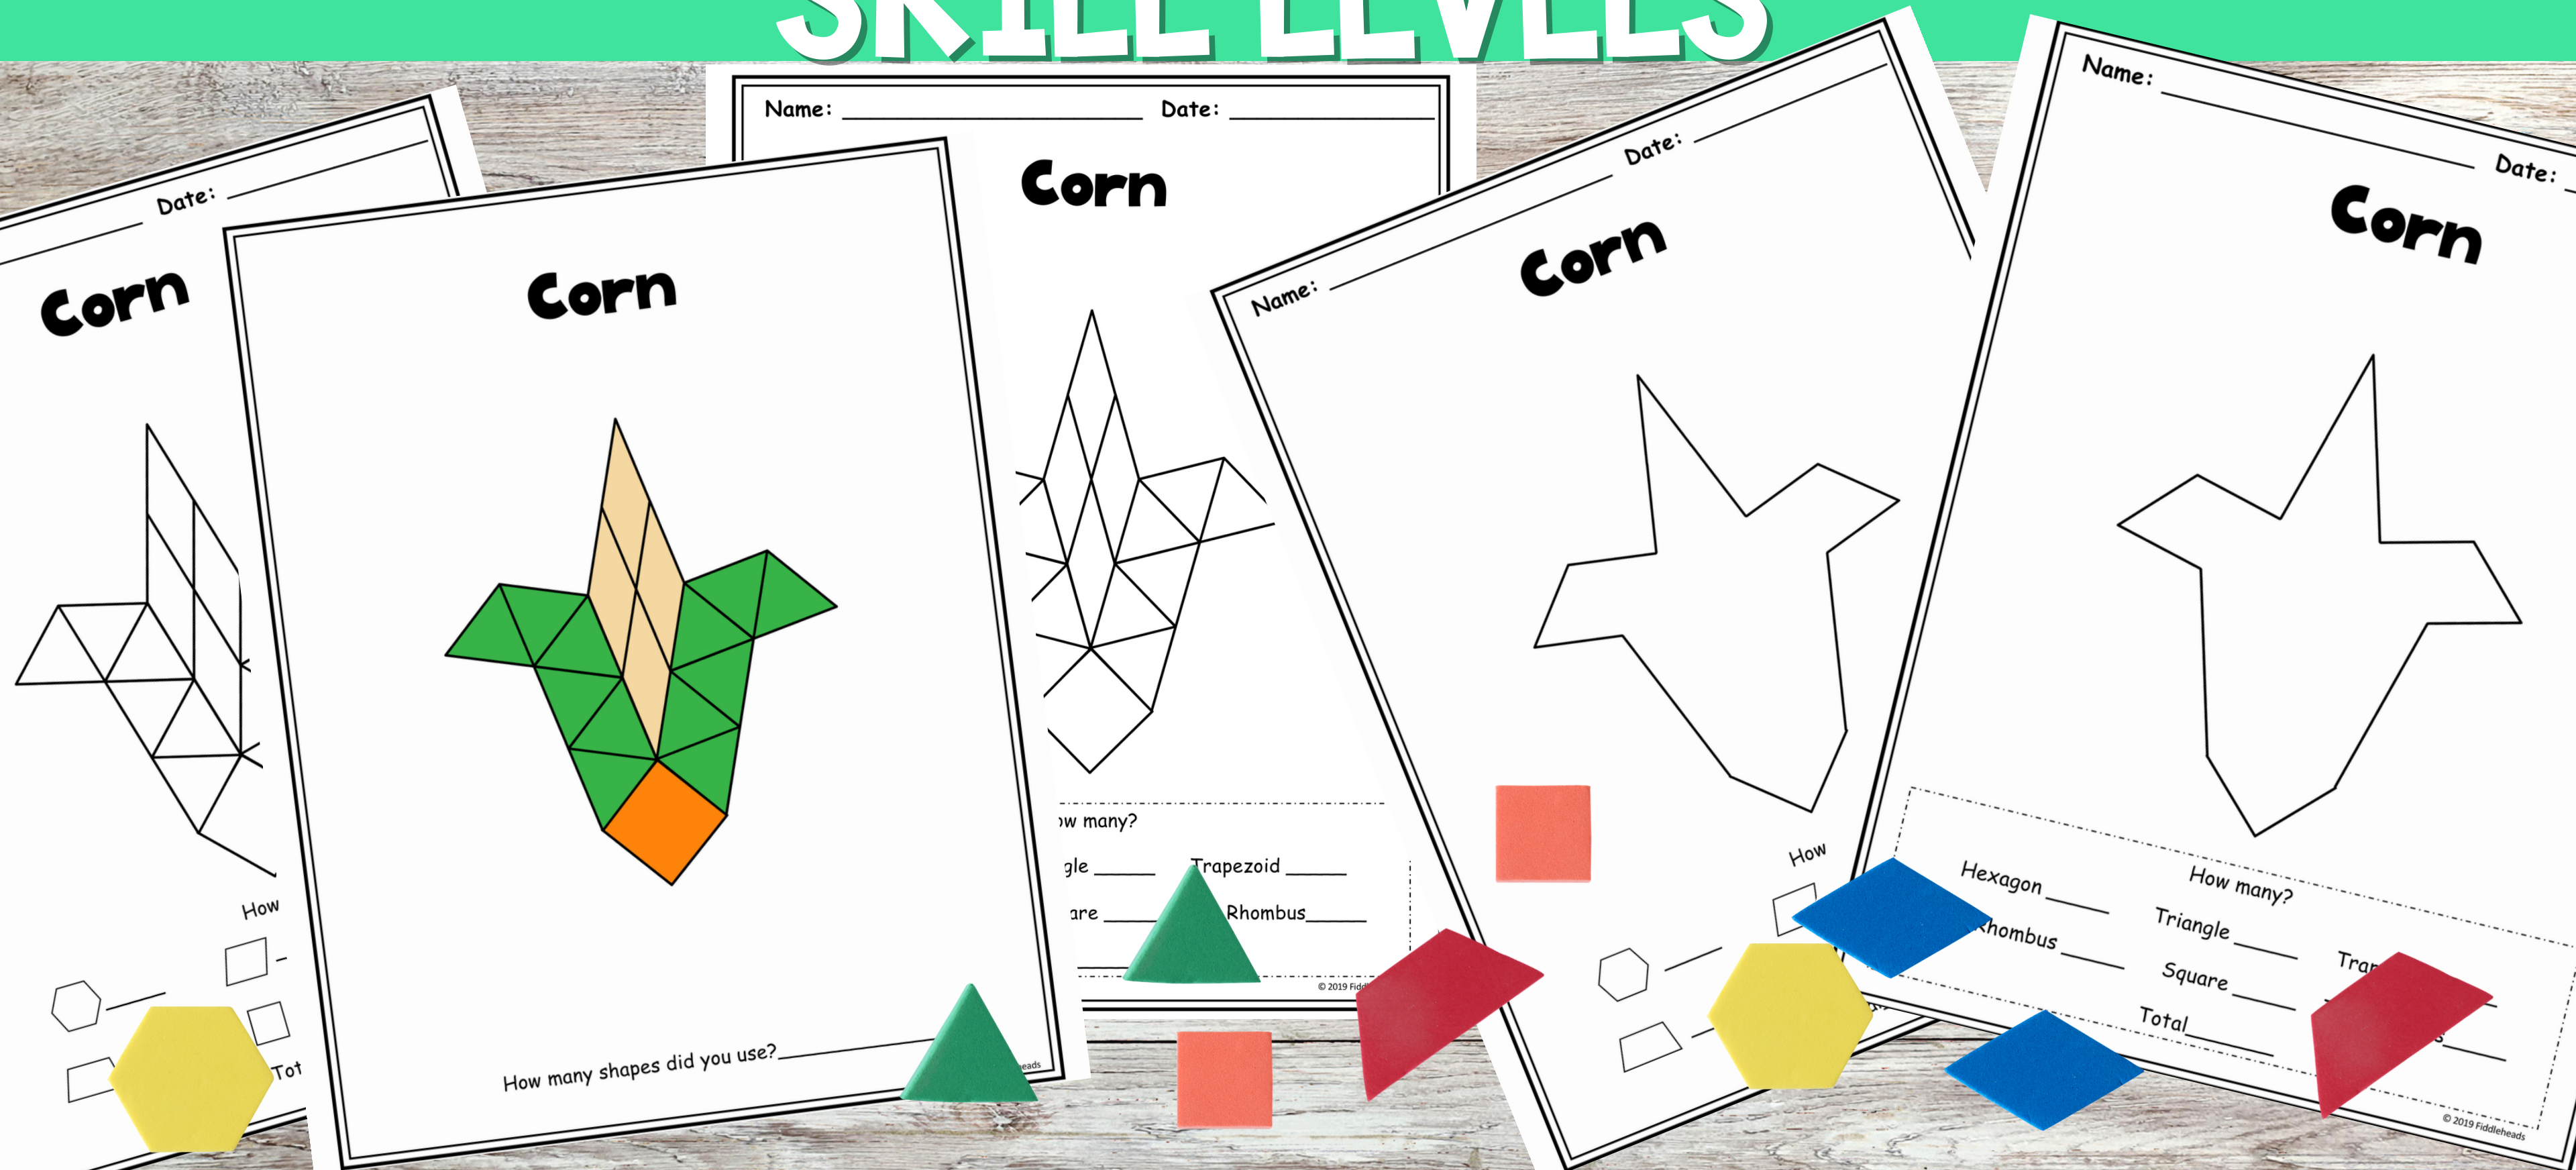

BLOCKS?

Master Shapes

Keep students engaged with these FUN shape puzzles. Students will compare and combine shapes to create a holiday themed tangram. Help your students explore and investigate mathematical concepts and shapes with these pattern block puzzles.

DIFFERENTIATED TO MEET ALL SKILL LEVELS

Directions and Helpful Hints Are Provided

Differentiation

Students can build shapes on color coded mat.

Students can work from outlined shapes or mosaic outline.

Task cards can be used as helpful hints or just by themselves.

Choose from outlined shape or name of shape to record how many shapes used.

How many?	Trapezoid
Hexagon	Triangle
Square	Tan Rhombus
Blue Rhombus	Total

Pattern Block Puzzles

September

Keep students engaged with these FUN shape puzzles. Students will compare and combine shapes to create a holiday themed tangram.

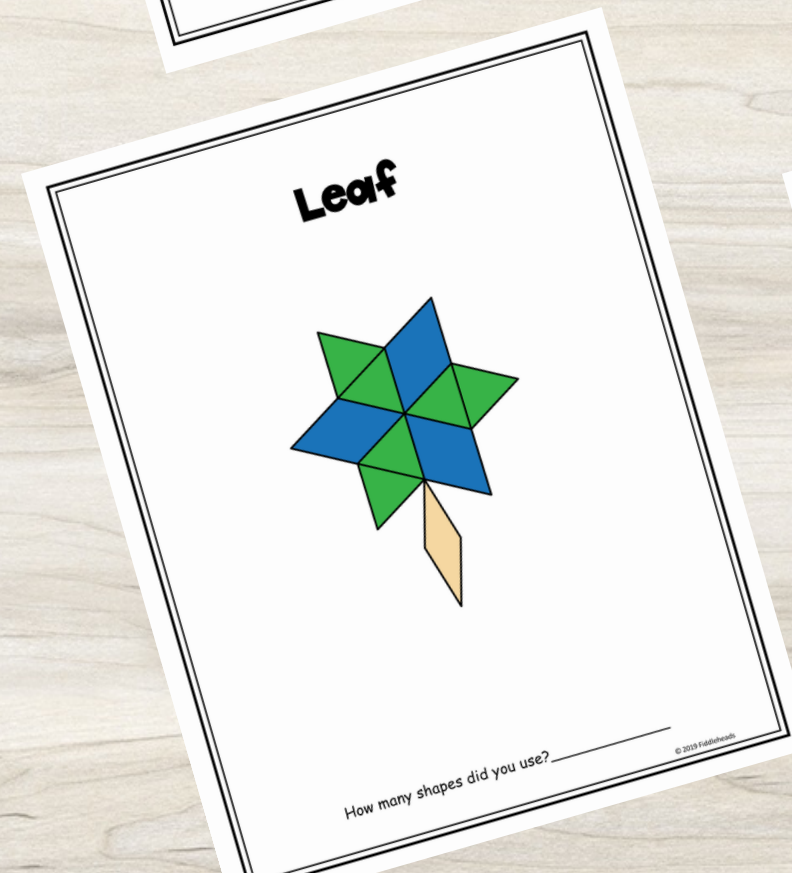

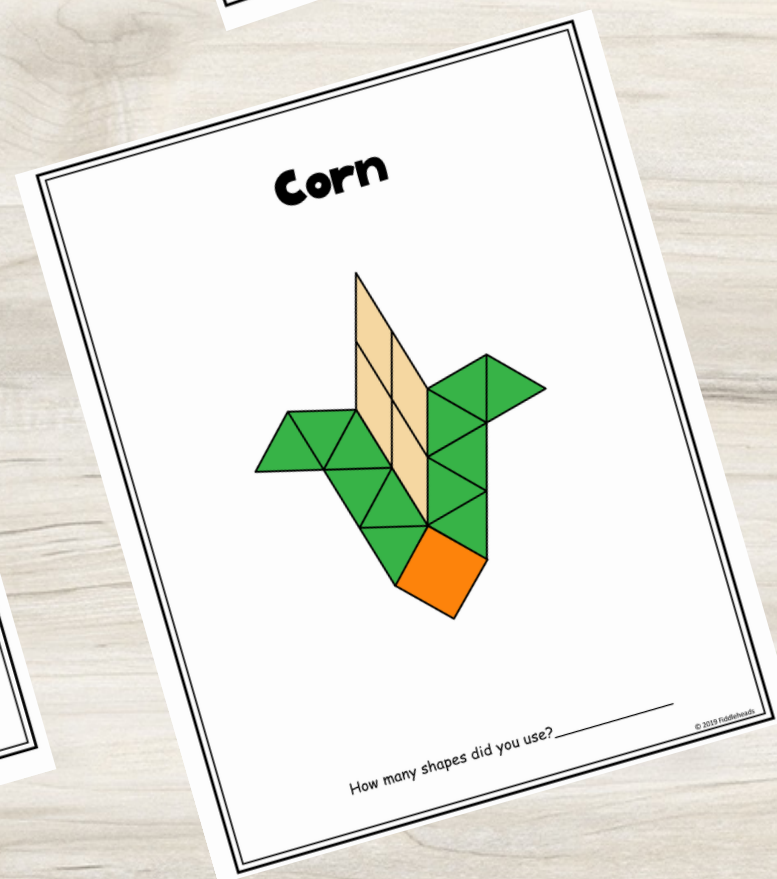

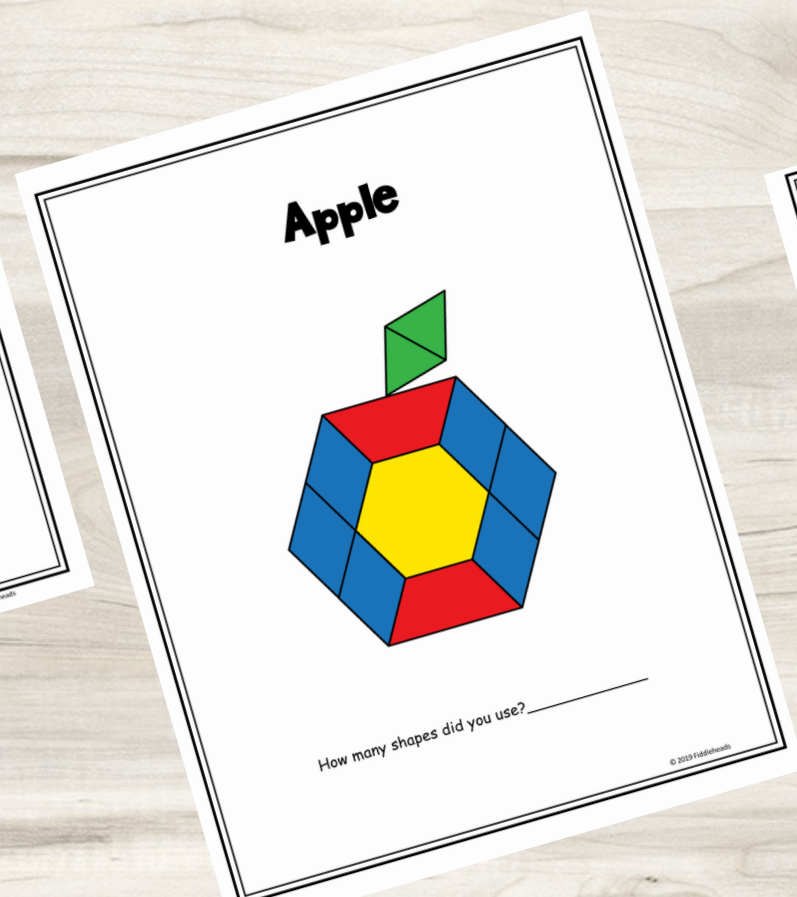

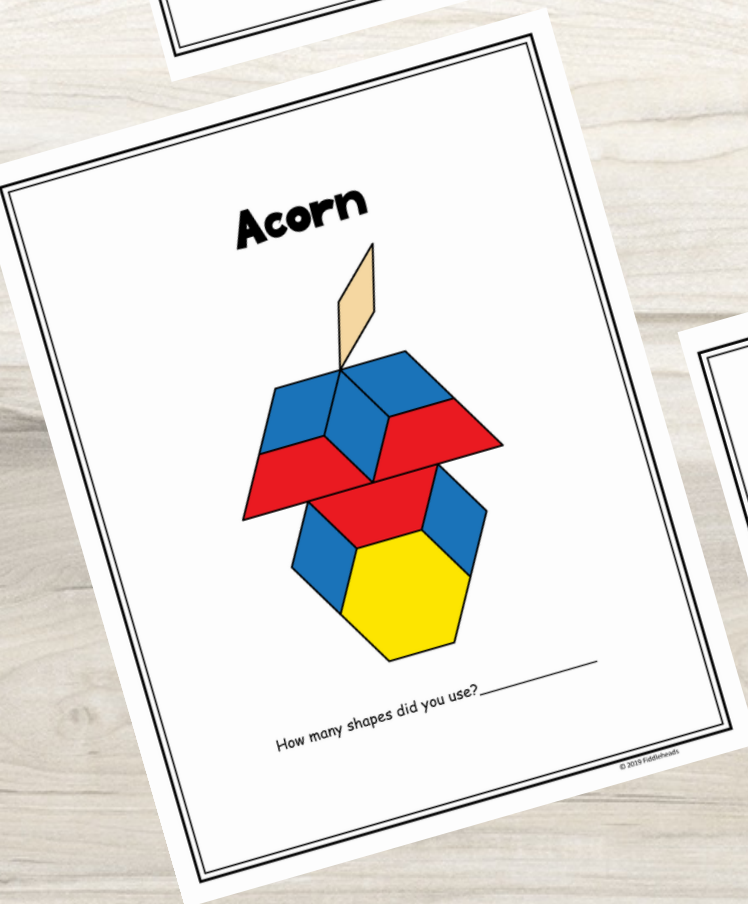

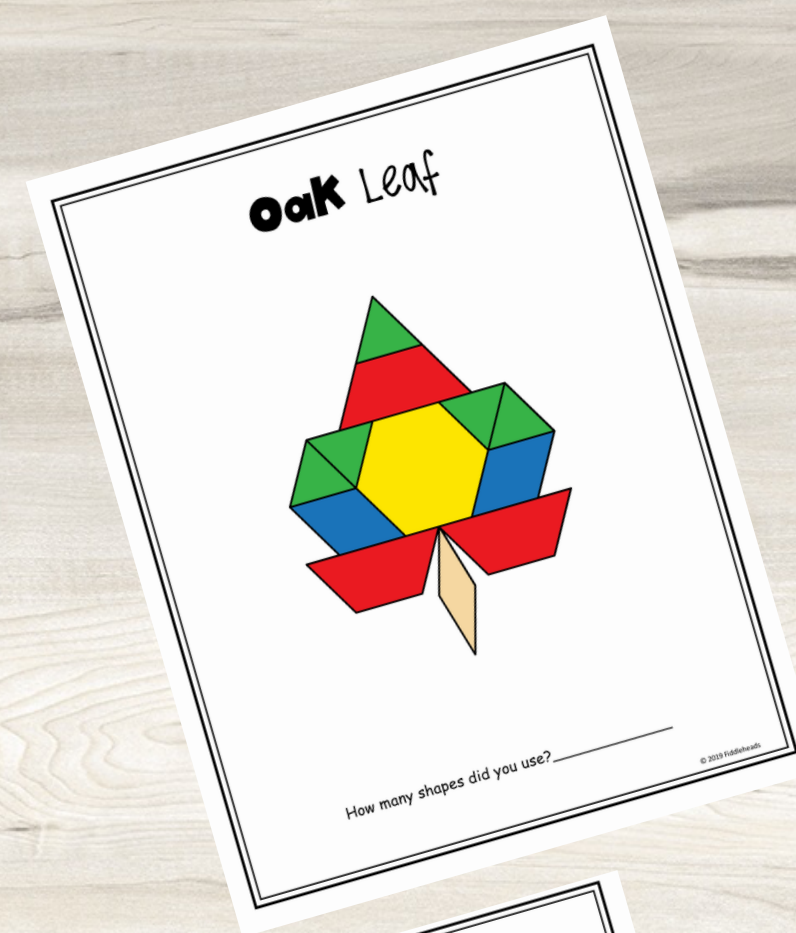

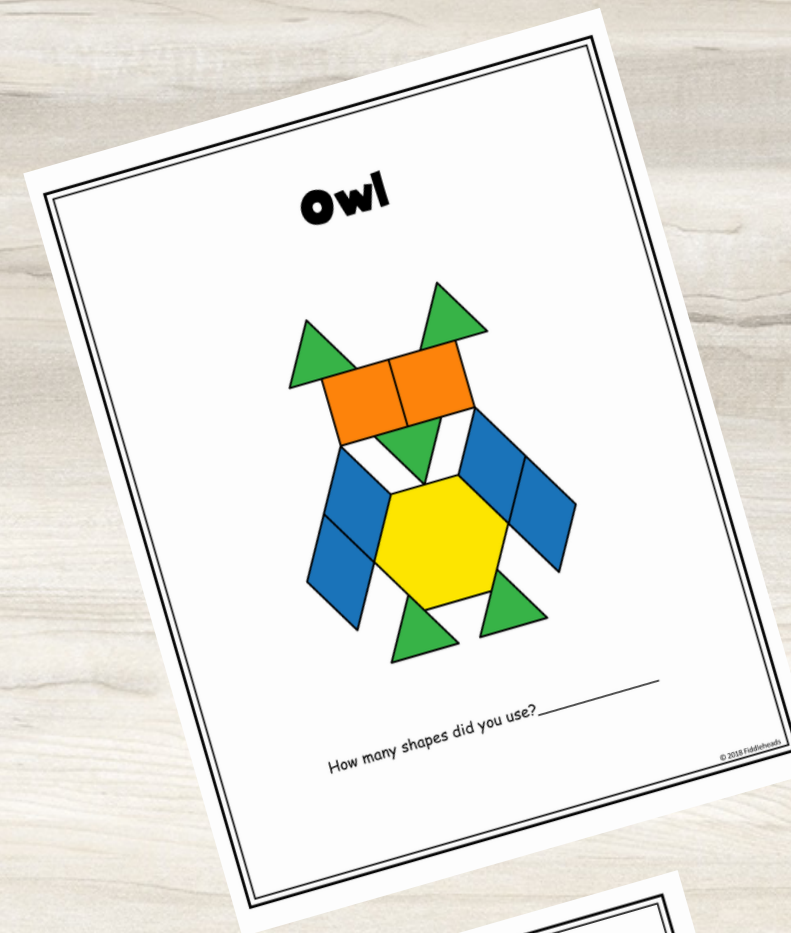

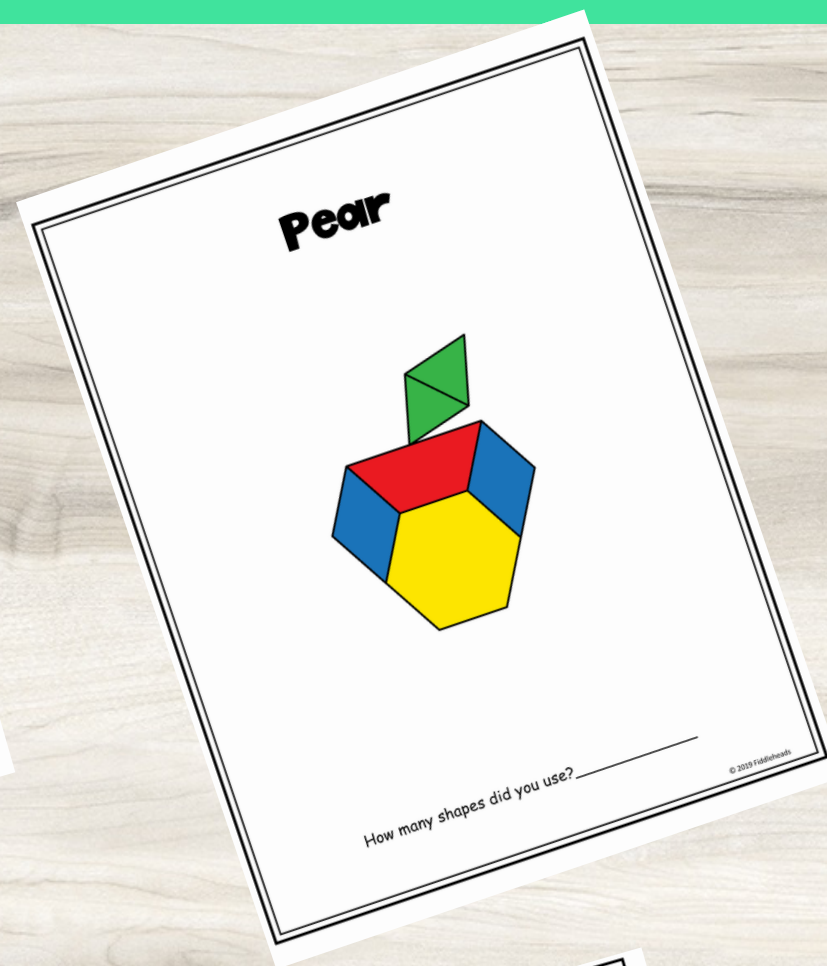

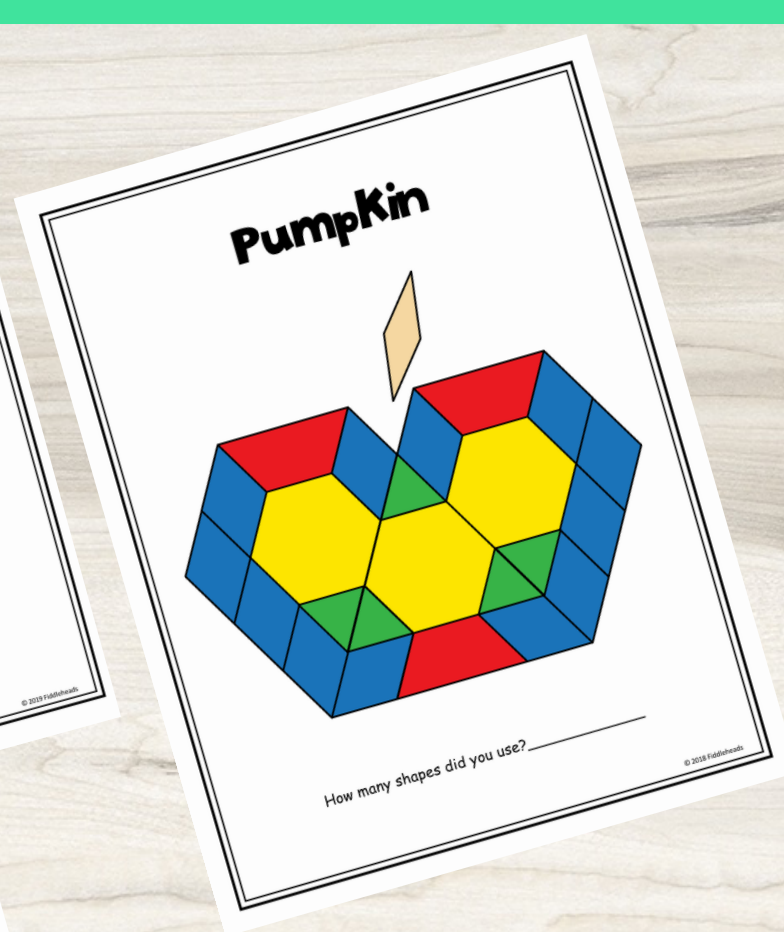

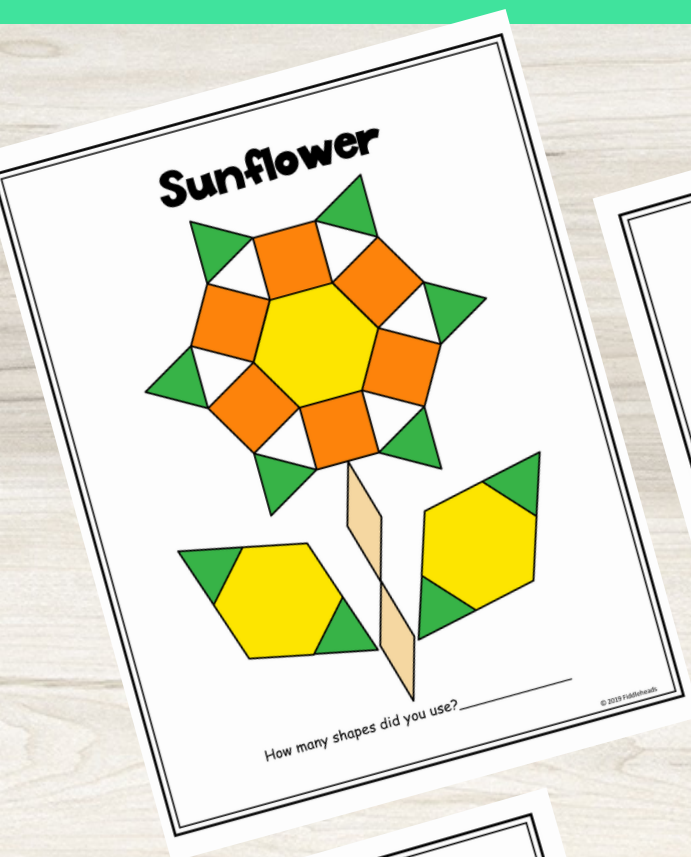

Each tangram is differentiated to meet all students needs. Each pattern includes six options which allows you to adjust difficulty level; color mat, miniature card, outlined with shape words, outlined with shape outline, solid white with shape words, and solid white with shape outline.

**** Please note: Print in "actual size" ****

What Teachers are saying...

"My students enjoy working with the monthly pattern block puzzles. They are excited when the new pack of cards are put out for them to work on. Thanks! " -Renee H.

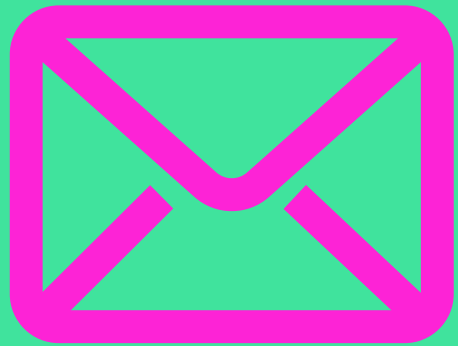

"This is a very good quality resource with multiple levels to work with. My after school students enjoyed the challenge cards that I included with them to encourage them to participate in their arrival bins when they reached our space." -Lisa H.

"Great hands-on activity with my geometry unit. " - Melody H.
